

Improve energy efficiency and save money with the **Simplified Savings Program**

Upgrade your business with energy-efficient lighting, auto-door closers and door gaskets for your refrigeration units, and other energy-saving solutions at **no cost**.

Program benefits

Customized energy efficiency planning by industry experts for maximum savings.

No-cost or low-cost equipment with available incentives.

Full project support including initial planning, installation, and rebate and incentives automatically applied by your installer.

Eligibility requirements

Use 50kW or less per site annually.
[Review your usage.](#)

Operate within a [disadvantaged community](#) or qualify as a [hard-to-reach customer](#).

Not a part of a chain with more than 10 locations.

Cannot be an active participant in PG&E Market Access Program or Normalized Metered Energy Consumption Program(s).

Implemented by PG&E's contracted partner, Resources Innovations, this program also offers incentives for larger projects like installing heat pump technology for water heating and climate control or fan coolers for your walk-ins.

We're here to help you get started

Let us walk you through the program and eligibility requirements.
